

YIN Haoteng

Academy for Advanced Interdisciplinary Studies (AAIS)
No.5 Yiheyuan Road, Beijing, 100871

Email: htyin@pku.edu.cn
Website: home.veritasyin.me

EDUCATION

- **M.Phil, Peking University** Beijing, P.R. China
Data Science, AAIS; GPA: 87.53/100 (General Rank: 3/47) 2016 – 2019 (*Expected*)
- **B.Eng, Shandong University** Ji'nan, P.R. China
Computer Science and Technology, Taishan College* (Honors School); GPA: 85.93/100 2012 – 2016
* **Top-notch Undergraduate Training Program by Ministry of Education, P.R. China**
- **B.Ec, Shandong University** Ji'nan, P.R. China
Finance (Minor), School of Economics; GPA: 4.47/5 2014 – 2016

RESEARCH EXPERIENCE

- **LIX, École Polytechnique & Inria** Palaiseau, France
Research Intern Jun. 2018 - Oct. 2018
 - **Machine Learning Attacks to Location Privacy**
Research Project (supported by team Comète, EP), under the supervision of Prof. Catuscia Palamidessi.
Developed a model of adversary that uses machine learning to learn about the geographical data collected from users of location-based services and the corresponding privacy mechanism, and then performs its attack on users' location privacy. This work is under preparation for peer review.
- **Center for Data Science, Peking University** Beijing, P.R. China
Graduate Research Assistant Jan. 2017 - Present
 - **Traffic Prediction with Deep Spatial Temporal Neural Networks**
Research Project (supported by Deep Learning Lab, PKU), under the supervision of Dr. Zhanxing Zhu.
Designed a fully integrated convolutional neural network to precisely model the topology of the road network and then accurately forecast the future traffic condition (speed, flow or volume) of the network through space-time series in the mid-and-long term.
- **School of Computer Science and Technology, Shandong University** Ji'nan, P.R. China
Undergraduate Research Assistant Jan. 2016 - May. 2017
 - **Hotspot Prediction Based on Temporal Trajectory and Social Attributes**
Research Project (supported by Database Lab, SDU), under the supervision of Prof. Yang Liu.
Proposed a location-vector embedding framework (Loc2vec) to predict the geographic hotspot in a certain area and explore its semantic meaning based on temporal trajectories, which are linked in a chronological order through users' check-ins gathered from location-based social networks.

PUBLICATIONS

- Bing Yu*, **Haoteng Yin***, Zhanxing Zhu. Spatio-Temporal Graph Convolutional Networks: A Deep Learning Framework for Traffic Forecasting. *The 27th International Joint Conference on Artificial Intelligence (IJCAI '18)*. Main track. (* equal contribution)
- **YIN Haoteng** and LIU Yang. Semantic analysis of spatial temporal trajectory in LBSNs. (in Chinese) *SCIENTIA SINICA Informationis* 47(8), 1051-1065(2017). DOI: 10.1360/N112016-00310 (**Best Paper Award**)

RESEARCH INTERESTS & SKILLS

- **Interests:** Machine Learning, Deep Learning Theory and Application, Data Mining.
Topics in Structured Deep Models (graph-structured data, spatio-temporal time-series); Privacy & Security (adversarial machine learning, robustness & generalization of DNNs, location privacy) and GANs.
- **Languages:** Chinese (native), English (professional working proficiency; TOEFL 100)
- **Programming:** Proficient in Python, Java, TensorFlow, PyTorch, L^AT_EX, Git
Experienced in C/C++, R, MATLAB, SQL

STUDY EXPERIENCE

- **DO SCHOOL** Beijing, P.R. China
Participant at Peking University Social Innovation DO Camp *Jan. 2017 – Feb. 2017*
- **Russian Presidential Academy of National Economy and Public Administration** Kazan, Russia
International Student Scholar at RANEP Summer Campus *Jul. 2016*
- **Institute of Continuing Education, University of Cambridge** Cambridge, UK
International Student at ICE Science Summer School Term I&II *Jul. 2015 – Aug. 2015*

SELECTED HONORS & AWARDS

- Academic Excellence Scholarship, Peking University (~8%) *Oct. 2016, Oct. 2017, Oct. 2018*
- The 35th International Conference on Machine Learning (ICML '18) Student Volunteer Award *May. 2018*
- The 2nd DiDi-IEEE Elite Forum Extraordinary Potential Award (2/39) *May. 2018*
- École Polytechnique International Student (Intern) Fellowship *Mar. 2018*
- Schlumberger HackPKU the Most Technical Difficulty Award (Team Leader) *May. 2017*
- Guanghua-Yintai PKU Social Innovation DO Camp Scholarship (€1,600) *Jan. 2017*
- The 5th National Conference of Social Media Processing the Best Paper Award (1/25) *Oct. 2016*
- AK BARS Bank the Best Ideas for Banking Business *Jul. 2016*
- The Best Show Prize for the 3rd Taishan College Academic Forum *May. 2016*
- The Third Prize Excellent Student Scholarship, Shandong University *Dec. 2013, Dec. 2014, Dec. 2015*
- Taishan College International Study Scholarship (¥33,000) *Jun. 2015*
- The Second Prize for the 1st Taishan College Academic Forum *Mar. 2014*
- The Provincial Second Prize for the China Undergraduate Mathematical Contest in Modeling *Dec. 2013*
- The Second Prize Excellent Student Scholarship, Shandong University *Dec. 2012*

ACADEMIC REFERENCE

Zhanxing ZHU (zhanxing.zhu@pku.edu.cn)

Assistant Professor, Center for Data Science, Peking University

Catuscia Palamidessi (catuscia@lix.polytechnique.fr)

Director of Research DR1, Inria Saclay and LIX, École Polytechnique

Yucheng HU (huyc@tsinghua.edu.cn)

Assistant Professor, Zhou Pei-yuan Center for Applied Mathematics, Tsinghua University

Yang LIU (yangliu@wlu.ca)

Associate Professor, Department of Physics and Computer Science, Wilfrid Laurier University
